

Letter of Conditional Acceptance/Consent to Doctor/Health Professional pursuant Article 6 Universal Declaration on Bioethics and Human Rights (UDBHR) 2005 and Data Subject Access Request pursuant Article 15 General Data Protection Regulation (GDPR) re: **Offer of Sars Cov-2 Injection.**

Date:

Dear **Doctor/Health Professional**

We are writing to notify you that we shall only offer our consent to be vaccinated/injected with the Sars-Cov 2 injection upon condition that the answers to every single question set out below is in the **affirmative** and all reasoning requested supplied to us as soon as reasonably practicable.

Q1: Are you, Medical Doctor/Health Professional (Name):
....., exercising your duties as a medical doctor/health professional as laid out by the General Medical Council (GMC) and do you stand by that at all material times?

Q2: Are you in possession of a full health and safety evaluation of the risks associated with the stated Sars Cov-2 vaccine/injection?

Q3: Do you have first-hand knowledge that satisfies you beyond reasonable doubt that the Sars Cov-2 vaccine/injection is sufficiently safe and effective for mass rollout **without** a marketing licence?

Q4: Are you satisfied that a Sars Cov-2 vaccine/injection is even necessary with the widely accepted extremely high survival rate from COVID-19 symptoms for the general population, and the fact no evidence has been produced by the government, despite repeated requests, that the Sars-Cov 2 virus actually exists?

Q5: Do you agree that this Sars Cov-2 vaccination/injection campaign amounts to a **human experiment** according to Nuremberg Code Article 6, as we are currently still in trial stage three until 2023 and that fully informed consent of the man or woman to be injected is an essential pre-requisite for you to avoid potential liability for complicity in any criminal acts perpetrated by the manufacturers and medical profession?

Q6: Are you satisfied beyond reasonable doubt that refusing access to services or employment against a person who does **NOT** agree to take the Sars Cov-2 vaccine/injection is not an act of discrimination pursuant Equality and Disability legislation nor a breach of their fundamental universal rights?

Q7: Do you have in your possession or control reliable data, independently verified, detailing the precise ingredients in the Sars Cov-2 vaccine/injection preferably in the form of a patient information leaflet?

Q8: Are you prepared to sign a personal indemnity for the benefit of ourselves and/or our heirs/next-of-kin upon full unlimited liability in your private capacity for any harm or loss of life experienced by us from adverse reactions following our taking the vaccine/injection in one or repeated doses?

Q9: Are you prepared to set out your precise reasons upon independent evidence for your affirmative answers to **Questions 3, 4 and 6?**

Q10: Do you understand that concealment of data and blocking or wilful refusal to provide data or information relating to our personal data is a criminal offence under Data Protection Act 2018 section 173?

Kindly send us a reply autographed in wet ink within one calendar month, in order for you to comply with Data Protection requirements and answer our concerns in honour and lawful transparency. Thank you.
